

## PRESS RELEASE

For immediate circulation 28<sup>th</sup> November 2008

### ISO 9001 Accreditation Three Years in Succession

Click-On Logistics Ltd are proud to announce they have passed all the requirements of the external audit carried out by QMS (Quality Management Systems) to obtain the ISO9001 accreditation for the Third Year in Succession.

ISO9001 is an internationally-recognised standard for business quality management, which ensures that businesses are operating to the same standards of meeting customers requirements.

This accreditation and acknowledgement of their adherence to strict quality standards has supported their success in winning significant contracts in both public and private sectors.

This accreditation positions Click-On Logistics Ltd in a unique position as a specialist logistics provider with ISO9001 accreditation.

Kevin Zwolinski, Managing Director of Click-On Logistics Ltd., comments “in this current climate where we need to remain competitive the ISO9001 accreditation demonstrates to our customers that quality assurance is of paramount importance to our organisation. We view the delivery of quality services to both our personnel and clients as vitally important in sustaining long-term business success and opportunity.”

THE END.
